

MAI[®] **4SILO** MOBIL GRAVITY

MAN ASSISTING INNOVATIONS

ECONOMICAL MOBILITY

MAI[®] 4SILO MOBIL GRAVITY

MOBILE MORE QUICKLY AND EASILY THAN EVER BEFORE

Thanks to its practical wheels our conveying unit for gravity silos can be rolled to wherever it's needed from any trailer, station wagon or truck, both quickly and easily. The carrying handles enable problem-free loading and unloading.

Even seasoned professionals with years of experience are surprised by this machine concept, which is suitable for all construction sites:

- Reliable, rotary compressor without oil lubrication
 - Logical, easy-to-understand operation
 - Service-friendly modular construction

HOOK IT UP AND IT'S READY TO GO

The logical arrangement of all controls and connections ensures fast and simple setup and operation. No downtimes are necessary for trouble-shooting because any errors are indicated.

THE ADVANTAGES AT A GLANCE

- Fully automatic phase inverter (direction of motor rotation is always right)
 - Fully galvanized frame
 - Diagnosis of errors

TECHNICAL DATA

Operating voltage:	400V/3/PE/50Hz
Nominal power:	5,7 kW
Fusing:	32 A
L x W x H:	111 x 56 x 82 cm
Air volume approx.:	100 Nm ³ /h
Volume of pressure:	65 Liter

WEIGHTS

Conveying unit:	176 kg
Pressure reservoir:	83 kg
