

MAI®2MIX Vela

POWERFUL MIXING

Description

MAI®2MIX Vela is powerful and efficient. An user-friendly and solid design ensures safe and convenient handling of the machine. A careful choice of the best components and materials ensures a long product-life even under rough site conditions. From precise and safe emptying of the pan to easy removal and cleaning of the mixer head, the mixer is well thought through - down to the last detail.

Applications

Concrete of all types, fireproof coatings, screeds, epoxy resins, granular material, mortars of all kinds, refractory clay, acoustic plasters, sprayed plaster, adhesive, thermal insulation, repair mortars, dispersions and much more.

- Easy and safe use
- Robust pan construction
- Easy to clean and maintain
- Large robust pneumatic tyre
